

General Purpose EMI Filter

- Rated current from 1 to 30 A
- Single stage filter
- General purpose filtering performance
- Optional medical version (Type B)
- Optional safety version (Type A)

Approvals:

Technical specifications

Maximum continuous operating voltage: 250VAC, 50/60Hz

Operating frequency: dc to 400Hz

Rated currents: 1 to 30A @ 40°C max.

High potential test voltage: L → PE 3000VDC for 2 sec (standard types)

L → PE 3500VDC for 2 sec (B types)

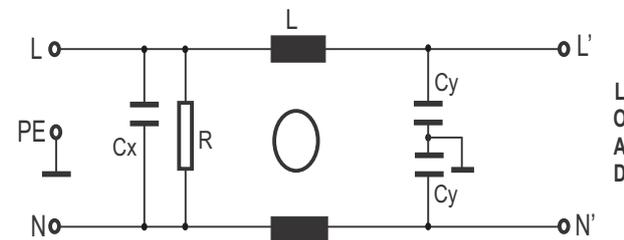

L → N 1100VDC for 2 sec

Temperature range (operation and storage): -25°C to +100°C (25/100/21)

Design corresponding to: UL 1283.

Feature and Benefits

- BL2010 Single-stage filters are designed for easy and fast chassis mounting.
- The BL2010 filters are also available as B versions with no Y-capacitors for medical applications as well as A versions with low capacitance for safety critical applications with a requirement for low leakage currents.
- All filters provide an general purpose conducted attenuation performance, based on chokes with high saturation resistance and excellent thermal behavior.
- The BL 2010 Filter can be use to cover broad range of uses and they can offer a good size/amperages ratio
- BL 2010 filters are also available as dual stage filters (BL 2060 & BL2070 series).
- Various terminal options allow you to select the desired connection style

Typical Application

- Electrical and electronic equipment
- Consumer goods
- Household equipment
- Medical equipment
- Electronic data processing equipment
- Office automation and datacom equipment
